A Child in Pakistan Needs a Vaccine Today — Will You Pay for It?

Imagine a mother walking two hours to reach a clinic. She is carrying her six-month-old baby. She has no money. She is praying someone will help. **Will that someone be you?**

We are the best organization delivering **free maternal and child healthcare** across Pakistan — Yaqeen Welfare Foundation is already there for that mother. All we need is your support. Donate now and protect a child's future today.

Children Are Dying From Preventable Diseases

Polio. Measles. Tetanus. These are diseases the world defeated decades ago — but in Pakistan's under-served communities, children still suffer and die from them.

Why? Because vaccines never reached them. Because no one paid for the clinic. Because no one gave.

You can change that today. One donation. One child protected forever.

What Yaqeen Has Done for Mothers and Children

Our numbers show the real impact of generous donors like you:

- **1,815 Maternal and Child Health** cases fully supported
- **894 Immunization and Lactation** services delivered
- Hundreds of mothers guided through **safe pregnancies**
- Thousands of babies given **life-saving vaccines**
- Families educated on **nutrition and child health**

Every one of these cases was funded by a donor who cared enough to give.

The Services Your Donation Funds

At **Yaqeen Health Clinic**, your money directly pays for:

- **Antenatal check-ups** for expecting mothers
- **Safe delivery guidance** and specialist referrals
- **Postnatal care** for new mothers
- **Vaccination programs** for babies and toddlers
- **Lactation counseling** for breastfeeding mothers
- **Child nutrition education** for entire families

All completely free for families who cannot afford it — because you gave.

New Clinics Are Being Built Right Now

Construction is underway. New facilities mean more mothers served. More children vaccinated. More lives protected.

But construction costs money. **Every donation you make today goes toward building the infrastructure that will serve communities for decades.**

This is your chance to be part of something permanent. **Your name may not be on the wall — but your impact will be in every child who grows up healthy because of this clinic.**

Donate right now to protect a mother and child. See the full scope of our health services. Follow our events to attend maternal health outreach programs. Read our mission and understand why we do what we do. Then contact us if you want to sponsor a specific maternal health program.

FAQs

Q1: How does my donation specifically help children?

Your donation funds vaccines, medicines, check-ups, and nutrition education for children at Yaqeen Health Clinic — all at zero cost to their families.

Q2: Can I sponsor a full vaccination program for a village?

Yes! Contact us at info@yaqeen.org to discuss sponsoring a specific program or community outreach drive.

Q3: Do you work in rural areas or only in cities?

We specifically target underserved and rural communities where healthcare access is most limited.

Q4: How quickly is my donation put to use?
Very quickly. Our clinic is operational and active. Donations are directed to patient care as soon as they are received.

Final Thought

That mother walking two hours with her baby — she is counting on you. She does not know your name. But your donation will reach her. Your generosity will protect her child.

Yaqeen Welfare Foundation is the bridge. **You are the hope.**

Donate today. Because a child somewhere in Pakistan cannot wait.
